

Belgrade International Molecular Life Science Conference for Students

The first Belgrade International Molecular Life Science Conference for Students (BIMLS 2015) is going to take place from **15th to 18th January 2015 in Belgrade Youth Center**. This conference aims to bring together **Bachelor, Master and PhD students** from faculties and institutes involved in life science research. It will enable exchange of research ideas and results, acquiring knowledge and skills, introducing students to research fields and career opportunities in life science, discussing current topics in life science research with leading experts and networking and interdisciplinary exchange of knowledge. Participants will be offered a chance to present the results of their scientific work and discuss them with their colleagues, as well as leading experts. The conference organizers are Institute for Gifted and Talented Children and Youth and Institute of Molecular Genetics and Genetic Engineering, University of Belgrade.

Abstract submission deadline is 15th November 2014. All abstracts must be in English language and reporting on the original research. The text limit is 2500 characters without spaces, not including the title and the presenter information (no tables or figures are allowed). Submitting author is required to insure that all listed co-authors have reviewed the abstract and takes responsibility for its content. Acceptance of the abstract in the program and assignment to a session are determined solely by the Scientific Committee based on a review of the abstract for the quality and originality of their research and scientific content.

Registration deadline is 25th December 2014. The conference fees are: EUR 20 for students with poster presentations, EUR 35 for non-presenting students and EUR 50 for non-students. Ten students whose abstracts are selected for oral presentation will attend the conference free of charge.

The conference program will include lectures by experts, workshops and oral and poster presentations of the accepted abstracts. Each participant can apply for a short visit to one of the institutions in Belgrade involved in life science research, which will be organized on the second day of the conference. The best oral and poster presentations will be announced and awarded on the last day of the conference.
